

Evaluation of Ecosystem Recovery

Site Name _____

Date _____ Assessor _____

ATTRIBUTE CATEGORY	RECOVERY LEVEL (1-5)	EVIDENCE FOR RECOVERY LEVEL
Attribute 1. Absence of Threats		
Over-utilisation		
Invasive species		
Pollution		
Attribute 2. Physical Conditions		
Substrate physical		
Substrate chemical		
Water chemo-physical		
Attribute 3. Species Composition		
Desirable plants		
Desirable animals		
No undesirable species		
Attribute 4. Community Structure		
All vegetation strata		
All trophic levels		
Spatial mosaic		
Attribute 5. Ecosystem Function		
Productivity, cycling etc.		
Habitat and plant-animal interactions		
Resilience, recruitment etc.		
Attribute 6. External Exchanges		
Landscape flows		
Gene flows		
Habitat links
